

Saks Metering has been contracted by the Borough of Keyport to conduct an area-wide water meter upgrade project. Saks Metering's authorized installers will be working in the community starting January 4, with photo identification, car signs and uniforms. Typically, the upgrade of your water meter should take no more than an hour to complete. In most cases, your water meter is located inside your home, basement or crawl space.

Please call Saks Metering now to schedule a time (starting January 4) for this upgrade. We can be reached by phone – 609-318-8111, email – info@saksmetering.com, or visit www.SaksMetering.com and click on "Make an Appointment". Appointments are available Mon-Sat 8 am to 7 pm. We look forward to working with you to accommodate your schedule. Should you have any questions or concerns regarding the project, please do not hesitate to call Saks Metering.

We thank you in advance for your cooperation and apologize for any inconvenience.
