Re: Meter Replacement Program

The South Farmingdale Water District has contracted SAKS Metering Company to conduct a district wide water meter upgrade. SAKS technicians will be in your neighborhood upgrading and installing new meters at no additional cost to you. Saks will leave you a door hangar or will contact you by phone to schedule an appointment to upgrade your meter. Your current old meter is most likely in your basement.

Authorized installers will have appropriate identification such as photo ID, car signage and uniforms. Typically the installation of your water meter should take no more than 30 minutes to complete; you may experience a temporary disruption in your water service.

If you want to be proactive in the process, you can schedule an appointment by calling Saks at 516 453 2922, emailing info@saksmetering.com or visit SaksMetering.com and click on "Make an Appointment". They will accommodate your schedule to the best of their ability.

Thank you for your patience and cooperation. Should you have any questions or concerns regarding this project, do not hesitate to call South Farmingdale Water at 516 249 3330.

Sincerely,

Francis J Koch, P.E.

Superintendent
